EXAMINER'S AMENDMENT

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: Species I of Figs. 2-3 and Species II of Figs 4-5. The species are independent or distinct because they are shown in different figures.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 4 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. During a telephone conversation with David J. McCrosky on February 21, 2006 a provisional election was made to Species I without traverse to prosecute the invention of Figs. 2-3, claim 2 along with claim 4. Claim 3 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Examiner's Amendment

Art Unit: 3751

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David J. McCrosky on February 21, 2006.

The application has been amended as follows:

In claim 2, line 13 of the claim, after "flat square spring having a", change "low friction" to --PTFE--.

Cancel claim 3.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The examiner phoned the applicant to fix the coating as PTFE as this is the proper terminology for Teflon and to cancel claim 3 as directed to a non-elected species to allow the application to proceed to issue. The primary reason for the allowance of the claims is the combination of the claims as cited in the office action of October 13, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
